Yoga Studio

Class Descriptions

Hatha

Hatha yoga places a special emphasis on controlled breathing and posture. Building core strength is key to good posture. Hatha yoga is a slower pace practice, and you'll hold poses for longer than you would in a flow-style yoga class. This is great practice for beginners and for people who want a more gentle activity that can help reduce stress and create mind-body awareness.

Yin Yang Restore

This Practice cultivates the use of muscular movement (Yang) with the connection to the Connective tissue/fascia (Yin) to help facilitate and attention to breathing, alignment, boost necessary movement within the body, all the while cultivating stillness and becoming grounded through the use of Restorative poses.

All props are offered from use of the Wall to Chairs to accommodate all levels.

Beginner Functional Movement Prenatal

Focuses on breath work, weightbearing standing using a chair for support. and non-weight-bearing exercise. Stretch work and functional movements will be performed to prepare people with children for lifting challenges, inflexibility, and who car seats and other essential exercises.

Beginner Recover, Retrain, and Restore Program Postnatal

Focuses on core breath, pelvic floor exercise and stretch and release work. Functional movements will be incorporated for lifting car seats, strollers and more.

Flow Yoga
